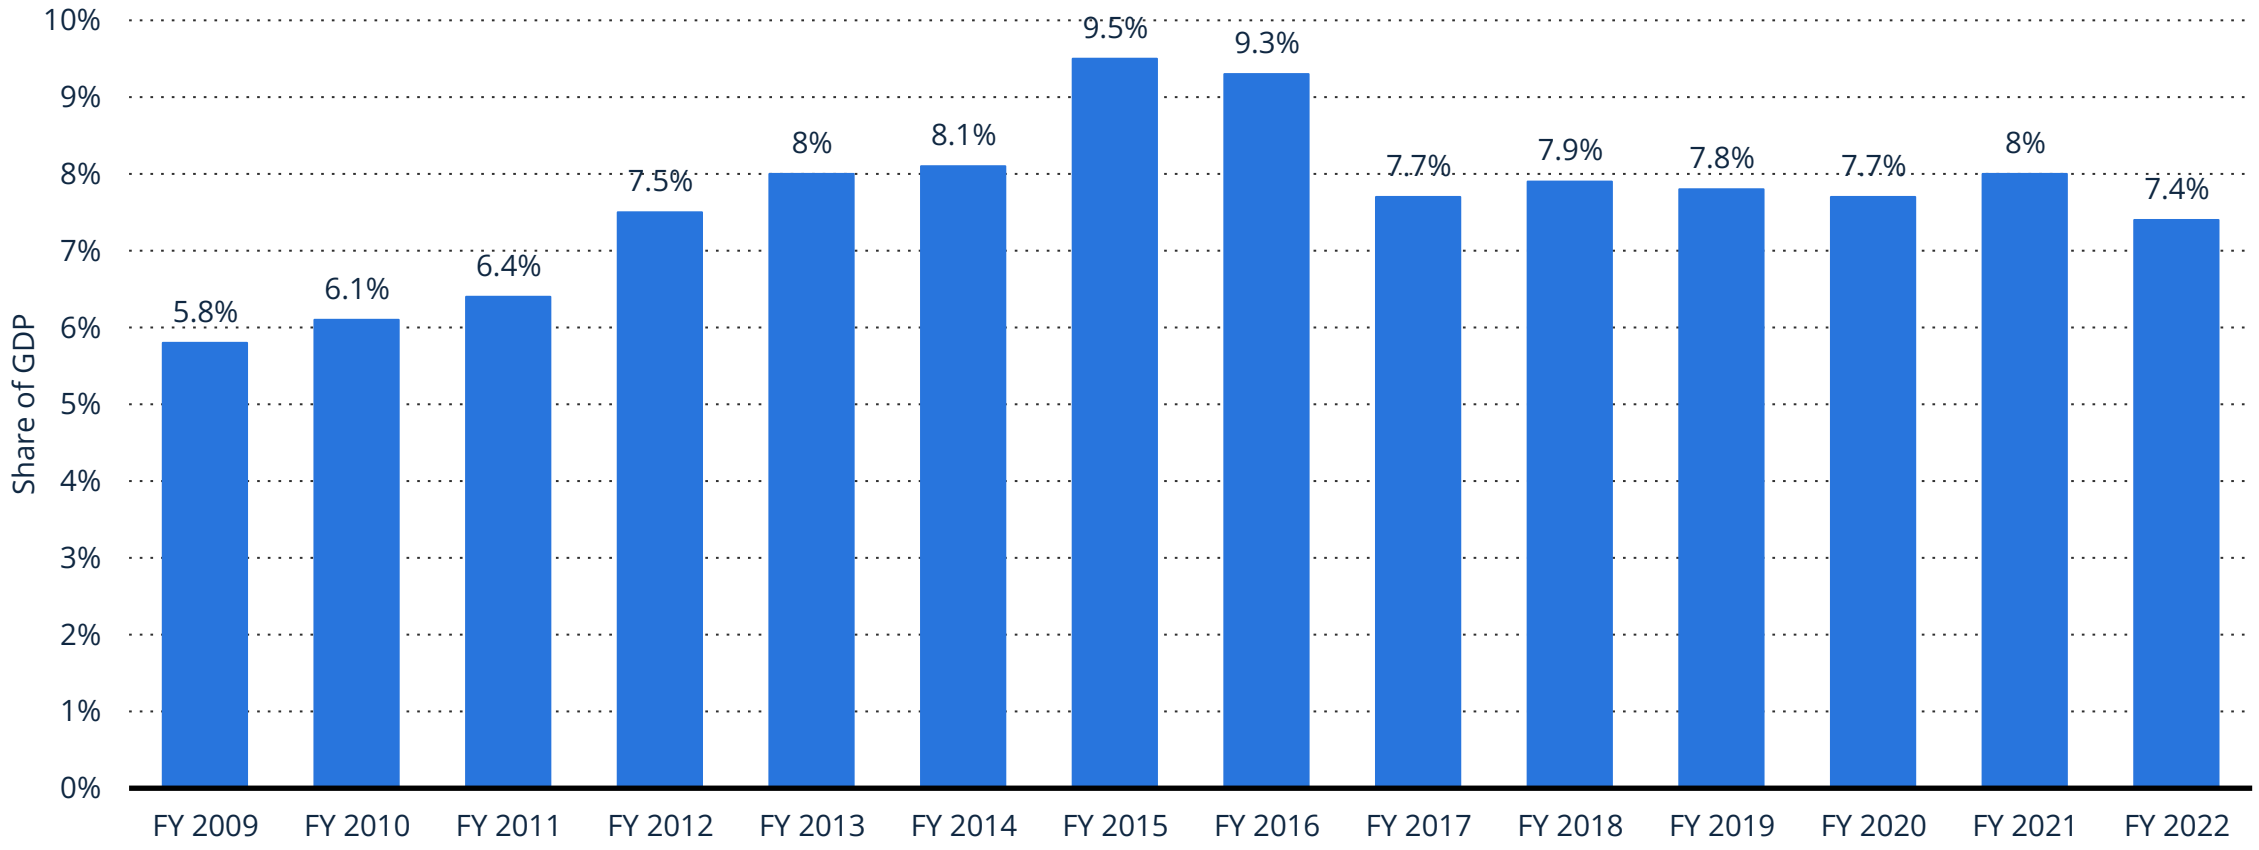
CHAPTER 01

Market overview

Share of Information technology/business process management sector in the GDP of India from financial year 2009 to 2022

Contribution of Indian IT-BPM industry in GDP of India FY 2009-2022



Description: Being one of the largest offshoring destinations for different IT companies across the world, the business process management market in India is of considerable importance. The information technology/business process management (IT-BPM) sector had contributed a share of about 7.4 percent to the GDP of the country in fiscal year 2022. BPM is more like a discipline than a process that incorporates methods to improve, analyze, automate and improve business processes. Read more
