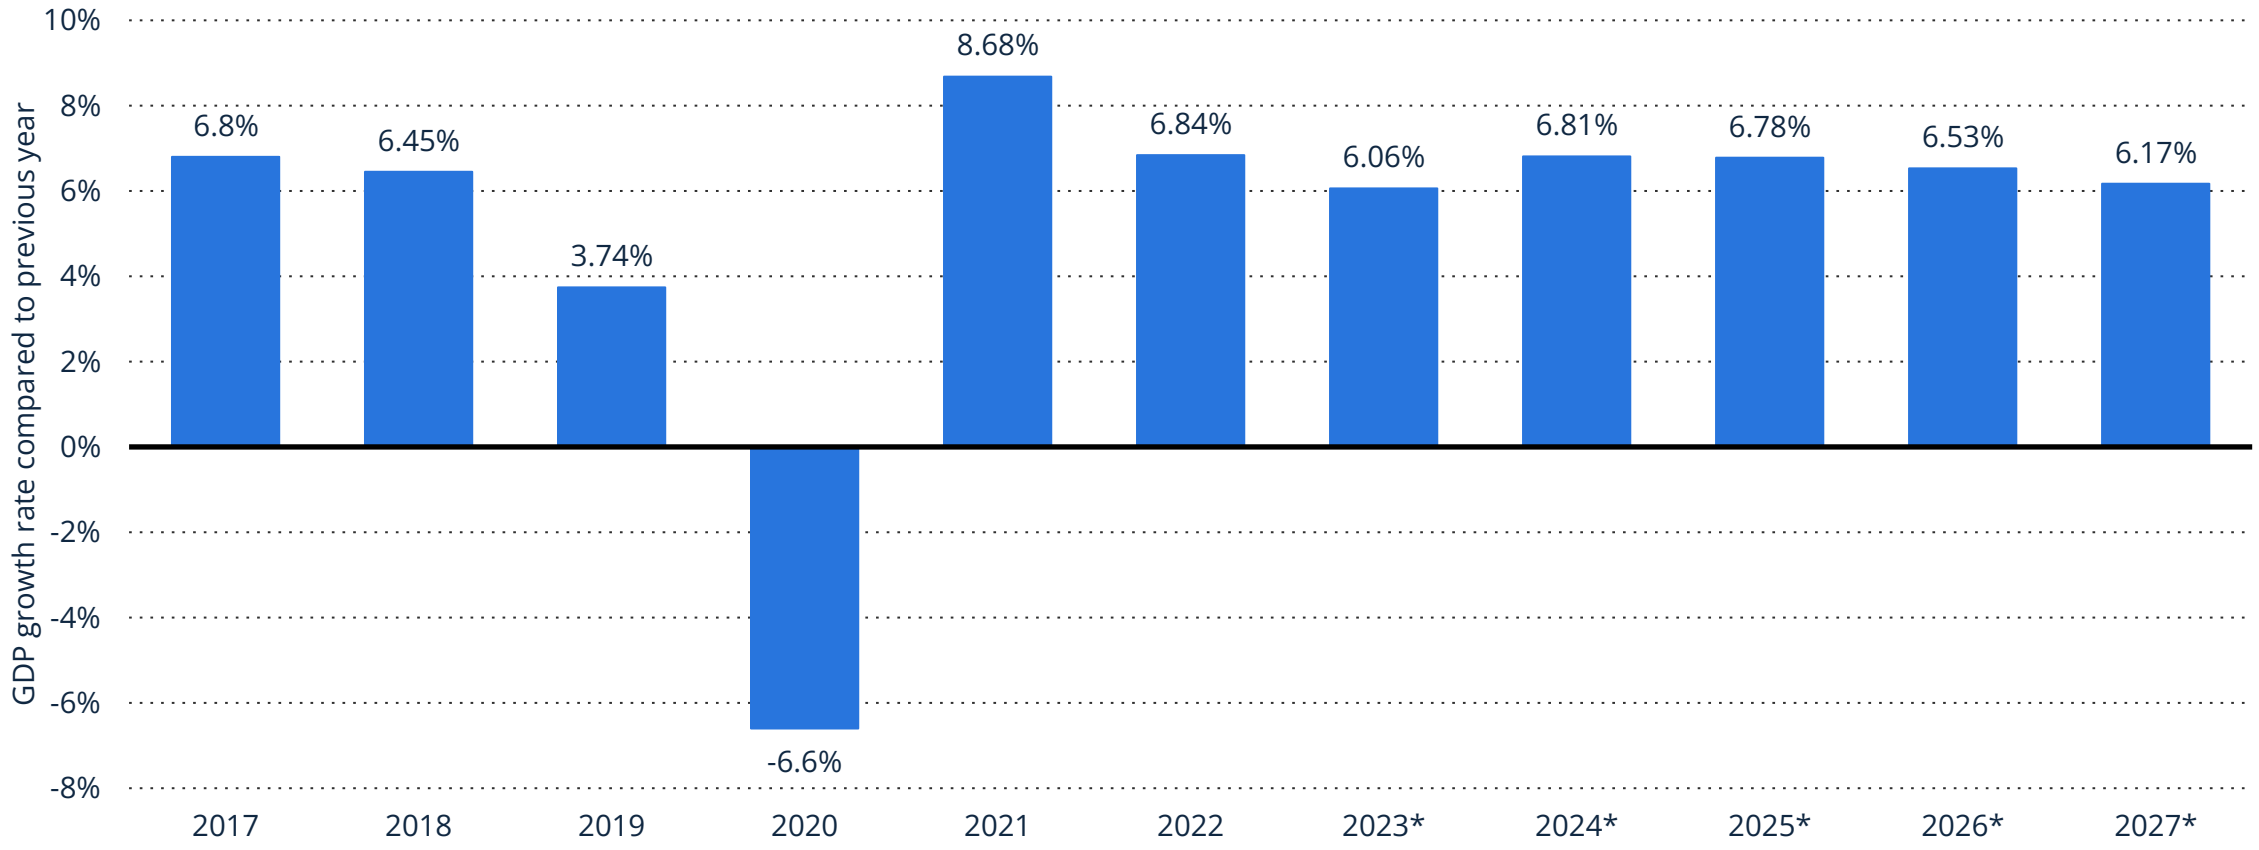
India: Real gross domestic product (GDP) growth rate from 2017 to 2027 (compared to the previous year)

Gross domestic product (GDP) growth rate in India 2027



Description: The statistic shows the growth of the real gross domestic product (GDP) in India from 2017 to 2022, with projections up until 2027. GDP refers to the total market value of all goods and services that are produced within a country per year. It is an important indicator of the economic strength of a country. Real GDP is adjusted for price changes and is therefore regarded as a key indicator for economic growth. In 2022, India's real gross domestic product growth was at about 6.84 percent [...] Read more
Note(s): India; 2017 to 2022; * Estimate. Values have been rounded to provide a better understanding of the statistic. Read more

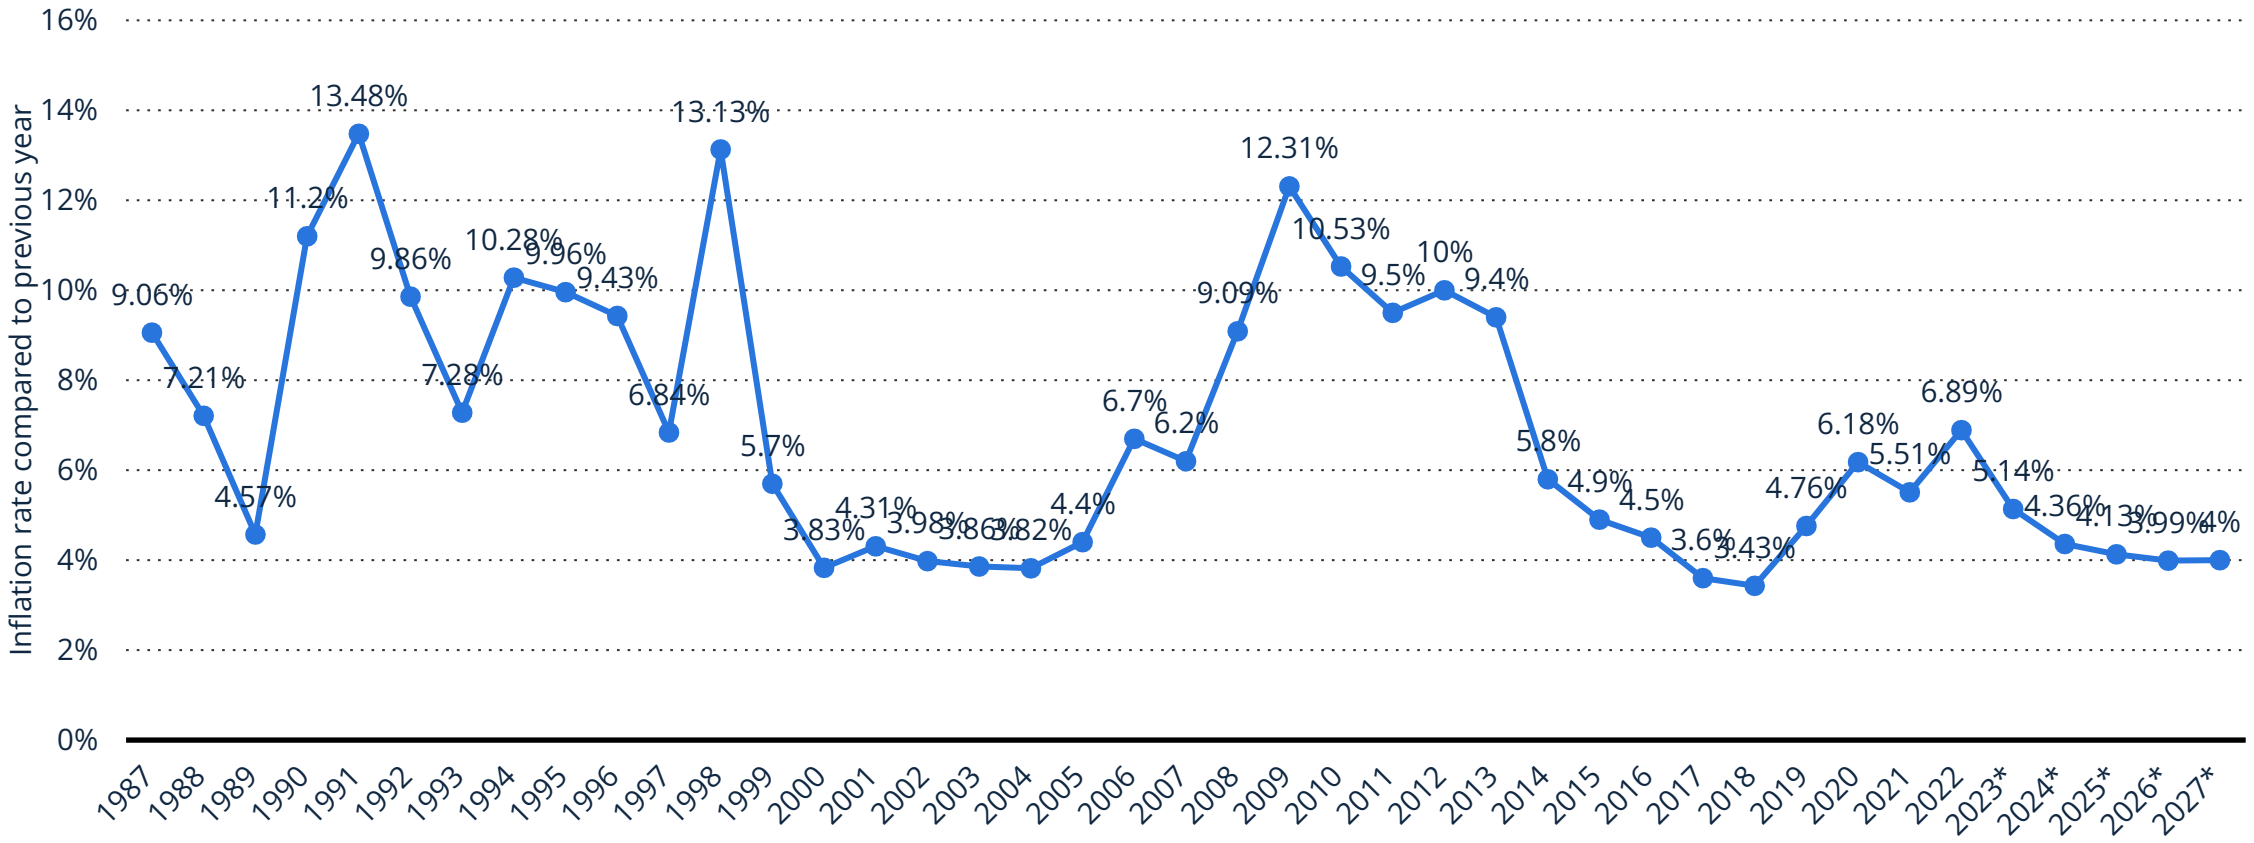
India: Inflation rate from 1987 to 2027 (compared to the previous year)

Inflation rate in India 2027



Description: The statistic shows the inflation rate in India from 1987 to 2022, with projections up until 2027. The inflation rate is calculated using the price increase of a defined product basket. This product basket contains products and services, on which the average consumer spends money throughout the year. They include expenses for groceries, clothes, rent, power, telecommunications, recreational activities and raw materials (e.g. gas, oil), as well as federal fees and taxes. In 2022, the inflation [...] Read more
